AP MicroEconomics	Online	2	5/28/21 2:30PM	n/a	Virtual At Home

All exams will take place in the 600 building. Please use test ending time as dismissal time.

Students require laptop devices, chargers, and portal log in information, unless testing on paper.

Test Time is 30 minutes before actual test start time. Students are required to log in early.

All students must leave the building after testing if not registered for in-person learning.

***From College Board:**

The digital testing application needs to be installed on each computer that will be used for testing and the students should log in with their College Board username and password on their testing computer.

Students should practice using the digital testing application.

Students must complete exam setup on the computer they'll use for the exam 1–3 calendar days before the exam date. Setup must be completed before each exam a student takes.

On exam day, students must check in 30 minutes before the scheduled exam start time or they won't be able to test.
