Home Of The Rockets

At Gordon K8 Achievement Academy,  
We Generate Opportunities for  
Resiliency, Determination, Optimism  
For targeted Navigations.

**Dr. Leviticus S. Pointer  
Principal**

Parents/Guardians/Students of Gordon K8 Achievement Academy; please know that we are not the typical alternative school and we provide the best options for students who deserve a second chance at pursuing/continuing their educational career. This work is completed throughout the Four Pillars of the Alternative Schools Department: Academics, Behavior Modification, Parental Involvement, and Service Learning. In addition, we have prided our school as a Quadruple A+ Plus school: Academics, Achievement, Attendance, Attitude, plus Alternatives.

## **Academics**

Alternative school classrooms are warm, friendly and inviting with highly qualified and certified teachers.

Teachers utilize a variety of techniques such as technology, project based-learning and alternative assessments in their classrooms. Web-based curriculum is used extensively in after school tutoring, to remediate academic deficiencies and prepare students for state assessments (TN Ready).

•Professional Counselors work diligently with students to plan their academic future and to ensure that students are afforded every opportunity to take all state mandated test

We pride ourselves in knowing that when students leave our programs, they are better prepared academically

We

**Exemplary Award  
for  
Alternative Education**
