Benefits of taking the PSAT 8/9:

-The PSAT 8/9 provides data that details student potential in Advanced Placement courses.

-The PSAT 8/9 student performance directly correlates to SAT performance; if a student scores a 1060 on the PSAT 8/9, he or she could score a 1060 on the SAT (21 on the ACT).

-Students can link their PSAT 8/9 exam results to Khan Academy (free) for individualized learning plans, and teachers can set up a classroom dashboard to monitor student progress.

-SAT and ACT are now so closely aligned that when students use Khan Academy, based on PSAT 8/9 exam results, this will still contribute to an increase in ACT exam results.
