

Who?

- ✓ Total Arts Coalition is a performing arts institution that educates aspiring artists through dance, music, theater, visual art, photography, and fashion designing. TAC was visualized as a means of serving the community by educating artists to tap into their natural gifts. We are an open space for everyone to explore their artistic side and share their story.

What

- ✓ TAC Emerge program is geared towards dedicated, hard-working students interested in taking their artistic abilities to the next level through intensive training and creative collaboration. The program is open to students who are in Shelby County.

Arts Exploration

- ✓ TAC Emerge program offers Arts exploration, which facilitates exploratory discussions about the role of the arts in both a greater societal context and a more local, personal one. Students will also investigate their roles as young artists through special sessions devoted to the idea of using art as a tool for individual transformation and social change.

Mind Mapping

- ✓ The Arts Emerge takes students a step further by having more than a dance/theater component. It includes a mental health curriculum called Mind Mapping. The Mind Mapping process allows students to use reflection and emotional activities to boost their self-confidence, and esteem. We also use that as gateway of inspiring self-imaging and authentic creativity.

Program Requirements

- ✓ Emerge classes are only offered after school hours
- ✓ Each session will only last 45 – 1 hour

Is there a cost?

- ✓ We are able to offer the Emerge program at a discounted cost of \$5 per session due to a grant funded by the Community Foundation
