Info updated.

Ready for next year.

Feeling good.

DON'T WAIT. VERIFY RETURNING STUDENT INFO FOR 2020-21 NOW IN POWERSCHOOL.

Returning students are automatically registered for school. But, we need parents to review and verify some important student info so it's all correct to start the new year.

This includes: email, phone numbers and address; emergency contact info; student health info, such as allergies and medications; Parent consent for photos and filming; and personal data sharing preferences.

It only takes a few minutes, then you're all set for next year.
1. log into PowerSchool. 2. Click the Returning Student link.
3. Review the student's info, then either update or confirm.
