January 29, 2024

Dear Parent or Guardian:

TCAP has been the state's testing program since 1988, it includes assessments in Mathematics, English Language Arts, Social Studies, and Science. The assessments include rigorous questions that measure students' writing, critical thinking, and problem-solving skills.

While the best preparation is strong instruction every day in the classroom, experience has shown that all students can benefit from extra preparation and assistance.

We will begin our mandatory tutorial program on Tuesday, January 30, 2024. These tutorials will help to prepare our students for all upcoming tests. All students enrolled in EOC courses are required to take exams.

This tutorial program is mandatory for students enrolled in the following courses: Algebra I, Algebra II, Geometry, Biology, English I, and English II. The tutorial sessions will be held on Tuesday, Wednesday, and Thursday for 2:50 p.m. until 3:50 p.m.

We appreciate your continued support and look forward to your child's attendance at all tutorial sessions.

Please help us to help prepare our students for success.

Sincerely,

A handwritten signature in black ink that reads 'Sandra Barnes Bobo'.

Sandra Barnes Bobo
Principal
