

Good morning,

3/30/20

I have taken time to set up an online account to access our textbook online along with lessons and activities for you to engage with at your discretion. I hope you will take the time to explore some of the work that I have put in place for you during this time.

Go to [pearsonrealize.com](https://www.pearsonrealize.com)

Your user name will be your initials followed with thompsonbio(your period number)

For example: ctthompsonbio1 if I were in your first period

Your password will be once again your initials followed with your lunch code.

For example: ct2548576 I made this number up.

I have only created the first 2 classes, so give me a few days to get all classes set up and let me know either by email or through remind if you have questions.

I hope you are finding ways to enjoy yourself, but also being helpful at home with chores and projects that your parents may not have time for. I'm certainly taking advantage of my time to do those things. I look forward to hearing and seeing some of the work you are exploring.

Happy Explorations!

Ms Thompson
