

Good morning,

I hope you and your family are well. I am reflecting on where we left off with our curriculum when we received the news of our closures due to the Pandemic of COVID19. I know many of you may not be able to access and complete the resources that I intend on sending out to you, and that's okay. I am only sending these resources for those that want to continue working on finishing up our Biology lessons for the year. Many of you request quizizz opportunities and I plan on continuing with sending those out as well.

Looking forward to seeing you again, when it becomes safe for all of us to be together again!
