

## OUR ACADEMY

At Kingsbury High School Academy of Health Science, we engage students by using health science as a lens through which everyday problems are analyzed, approached and solved. Students learn how to think as health care professionals and rediscover the wonder and joy of learning.

In August, a new cohort of 30 students will be inaugurated in the Academy of Health Science. NAF students will become a part of a national network with access to a multiplicity of exclusive opportunities, including scholarships and preferential hiring at prestigious multinational companies.

The benefits of being a NAF student include:

- Access to scholarship opportunities for undergraduate and graduate school
- Curriculum developed with the help of industry leaders
- Potential paid internship opportunities
- Opportunities to network with businesspeople
- Mentorship opportunities with successful NAF alumni
- Exclusive NAF networking and alumni events
- Preferential hiring at companies that recognize NAFTrack Certification

To be considered to become a member of the NAF cohort, complete an online application:

## OUR MISSION

The faculty at Kingsbury High School is dedicated to student development. We work to release the intellectual capacity of all students while affirming their right to learn, focusing on a benchmark of a minimum of 90% Proficient on all state and federal summative assessments, with a minimum of 60% of students placing Advanced. We are committed to preparing our students to make a 30 or above on the ACT.

## OUR VISION

By empowering our students to learn, Kingsbury High School hopes to instill in all students the ability to achieve their dreams, to work responsibly and ethically, to respect individual and cultural differences, and to adapt through continued learning, to the many occupational and technological challenges of the 21st century.

## CURRICULUM\*

The Kingsbury High School Academy of Health Science provides students with exposure to various health science occupations and focuses on the Nursing Services program of study. The Nursing Services program of study prepares students to pursue careers in nursing field. Upon successful completion of this program, students will be able to utilize appropriate interpersonal skills in communicating with constituents, maintain residents' rights and independence, provide safe care, prevent emergency situations, prevent infection through infection control, and perform required nursing assistant skills.

Successful completion courses and certification exam provides students the opportunity to seek immediate employment as a Certified Pharmacy Tech, Certified Clinical Medical Assistant or Patient Care Technician.

This program of study also provides a foundation for students who plan to seek a degree in medicine and/or enter medical school. The program of study's emphasis on anatomy and physiology along with patient care content and skills is congruent with emphasis on science and math needed for success in medical school.
