## HOMECOMING!

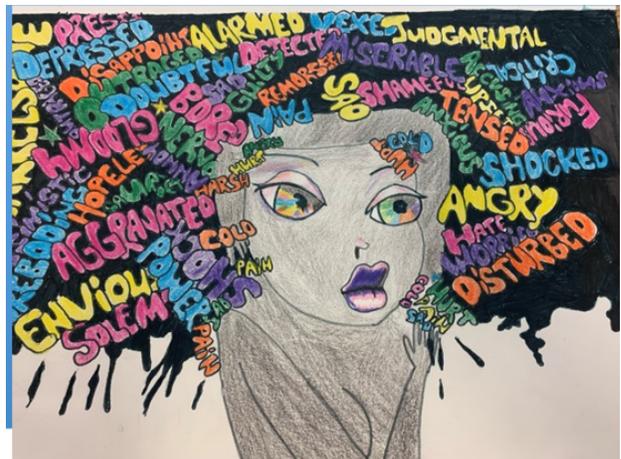

I know we are all excited about homecoming this week. I hope to see all of you support our Bulldogs at the homecoming game on Thursday @ Crump at 7:00 pm after supporting our volleyball team @ MCHS at 5:00 pm.

According to the University of Illinois, "Homecoming is a long-standing American tradition where colleges and high schools would welcome alumni back to campus and the community." It is a time to celebrate the accomplishments that have become part of that school's tradition.

As we celebrate homecoming this week, here are a few things for our Bulldog families to consider:

How are my choices adding positively to the legacy I will leave at MCHS? Has my family helped to support MCHS sustainment? Will my student honor MCHS with their gifts and talents while at MCHS? When we return to visit, which part of our legacy will we see?

**Let's make it a great week! It's HOMECOMING!**

## WHATS HAPPENING IN SCHOOL?

Shout out to our chemistry students who are engaging in some great work as they completed the Build an Atom Speed Challenge. Their task was to build an atom of an element such as iron and titanium by correctly counting the subatomic particles of protons, electrons, neutrons using the model. Student volunteers acted as game hosts and evaluated if the group correctly showed their models with correct numbers.

# Saturday School

We recently completed our 1st cycle of Saturday school. The purpose of Saturday school is to provide students with the necessary supports to stay on top of their work, as well as provide study space for students who wish to engage in peer tutoring or study groups.

Our next cycle of Saturday school begins on **September 18th** and will last for three weeks. Students will be selected for mandatory intervention if they are identified by a teacher based on their progress up to our progress reporting period, September 8th, and students who are behind pacing in SAILS, Memphis Virtual School courses online, and AP Access for All online courses.

Saturday school intervention is **mandatory** to help students remain eligible for extracurriculars and to remain in good standing with MCHS. Students who work should ensure their grades remain in good standing; weekend jobs are not an excuse for students to miss Saturday school. For the next Saturday cycle, parents will be informed on **September 9th** after progress reports are distributed on September 8th.

---

A limited amount of students will be allowed to voluntarily sign up for study space during Saturday school.

Students who are behind pacing in SAILS, MVS, or TN AP Access will be assigned Saturday school to ensure they get caught up.

***Before we go!***

**ACT<sup>®</sup>**

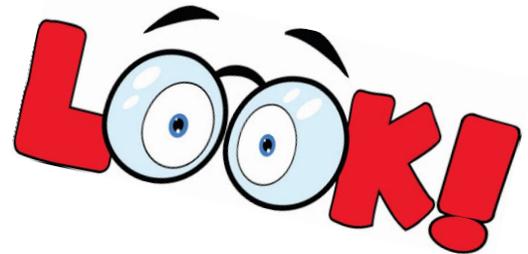

ACT is approaching!!!! As you all know it is an expectation at MCHS that all students are preparing to participate in our Dual Enrollment program, accruing college hours prior to beginning full college matriculation. The best way to do so is by improving your ACT score. Additionally, even though some schools are test-optional, a high ACT score ensures additional opportunities for admission and scholarships. Let's do our part!!!! Over the next few weeks, students will be provided opportunities to grow their ACT scores!

**October 5th**
